

2019-20

SCHOOL PLAN

PARK AVENUE ELEMENTARY

PARK AVE SCHOOL GOAL 2019-2020

What's our goal?

To improve student math/numeracy skills through the use of Growth Mindset and Project Based Learning

What's our inquiry question?

Will we see an increase in student success, in the area of numeracy, if we focus our instruction on the use of Growth Mindset and Project Based Learning, with some use of technology.

How do we want to get there? What steps should we take? How will we know that we have had an impact?

- 1. Assessment (ie: INA, DMA, and numeracy in class assessments)**
- 2. Create lessons (researching best practices) – which includes formative assessment, then summative (ie: intervention/enrichment where needed). In these lessons we will utilize common assessments in both primary and intermediate.**
- 3. Use programs stated above – evaluate data**
- 4. Celebration of Learning**
